Ref: KE-2020-032

Dear CDC Directors:

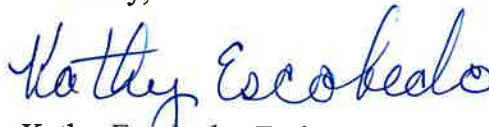

On August 14, 2017, the Early Intervention and Education Program (EIEP) sent to all Child Development Centers (CDC) an updated list of approved assessments for the determination of eligibility for Part B/619 services. With CDC input and with many assessments undergoing updated versions, the EIEP has included within this letter all the latest updates to the approved assessments list. Please see below for the list of assessments which have been updated to comply with the current versions of these assessments, as well as, some additional assessments that have been added at the requests of CDC. Please continue to ensure the assessments are administered and interpreted by a qualified professional as prescribed in the assessment protocol. **The resulting scores, including the z-scores, must be included in the Evaluation Report, Eligibility Determination forms and Multidisciplinary Team Report (MDT).** In addition, if there is a need for an assessment to determine eligibility that is not on this list, please submit a written request to the Part B Coordinator.

1. Autism Diagnostic Observation Schedule II	2. Battelle Developmental Inventory II/III
3. Bayley Scales of Infant and Toddler Development III/IV	4. Behavioral Assessment System for Children III
5. Clinical Assessment of Articulation & Phonology II	6. Clinical Evaluation of Language Fundamentals Preschool -2/3
7. Comprehensive Assessment of Spoken Language-II	8. Developmental Profile-3
9. Devereux Early Childhood Assessment-Second Edition	10. Goldman Fristoe - 3
11. HAPP-3 (Hodson Assessment of Phonological Patterns)	12. Kaufman Speech Praxis Test
13. Learning Accomplishment Profile-Diagnostic 3 <sup>rd</sup> Ed	14. Learning Vision Assessment
15. Mullens Scales of Early Learning	16. Peabody Developmental Motor Scales II
17. Peabody Picture Vocabulary – 4 <sup>th</sup> Ed	18. Preschool Language Scales - 5th Edition
19. Structured Photographic Articulation Test - II/III	20. Structured Photographic Expressive Language Test - II/III
21. Stuttering Severity Instrument-4	22. TAPS O&M Assessment: Early Years of Birth through Three Years
23. Vineland Adaptive Behavior Scales - II	24. Wechsler Preschool & Primary Scale of Intelligence - 4th Edition

There are other assessments that may be used to assist the team in the development of the Individual Education Program (IEP) and for programming. These assessments along with their scores must be included in the Evaluation Report, Eligibility Determination forms and Multi-disciplinary Team (MDT) report.

On behalf of the EIEP, we appreciate your ongoing commitment and service to Wyoming families and their children.

Sincerely,

Kathy Escobedo, Early Intervention and Education  
Program Manager, Behavioral Health Division
